

DO YOU KNOW? BIRDS AND INSECTS

Do all birds fly? What do insects eat? Find out all about moths, penguins and dancing butterflies.

This a non-fiction book to motivate and engage young learners. It will develop your child's language, communication and investigation skills. Video clip links are included in the book.

What's that song?

Listen with your child to the different sounds birds make in our towns and gardens when you are out and about. Do you know which bird it is?

Wouldn't it be great to identify a bird just from its song alone?

Use the this link to help on your bird listening walk:

Nature Art

When you are out and about try collecting some leaves, sticks and fir cones to make an insect or bird. Take a photo of your creation then start again.

To the tune of Coming Round the Mountain.

There's a Tiny Caterpillar on a Leaf

*There's a tiny caterpillar on a leaf, wiggle, wiggle.
There's a tiny caterpillar on a leaf, wiggle, wiggle.
There's a tiny caterpillar, tiny caterpillar,
there's a tiny caterpillar on a leaf, wiggle, wiggle.*

Repeat each verse like the first one with the following words:
*He will eat the leaves around him 'til he's full, munch, munch.
A cocoon is what he's spinning for his home, spin, spin.
Then he'll be a butterfly and flap away, flap, flap.*

Listen and join in with the song from the BBC
